

PROGRAM SPECIFIC OUTCOMES

DEPARTMENT OF STATISTICS

S.D.G.S.COLLEGE,HINDUPUR.

S.No.	Course Name	P.O. Number	Program Specific Outcome
	B.S.C. STATISTICS	P.O.1	Understand the nature and scope of the subject and basic concepts and terminology of statistics.
		P.O.2	Students are expected to understand at the various methods and comprehensively correlate them in design and operation of statistical Data.
		P.O.3	Application of Statistical Methods is used to solve the problems relating to all types of statistical Data.
		P.O.4	Solve and understand the ability to solve Statistical problems and to estimate future prediction by means of and statistics models.
		P.O.5	Understand the Basic Concepts of Sampling Techniques and How to do Experimental Designs
		P.O.6	Students can understand the concept of Quality and Reliability in the real life problems pertaining to statistics.
		P.O.7	To develop analytical and research skills and to carry out studies regarding Applied Statistics scenarios.
		P.O.8	study of operations research enables the students to solve complicated decision making situations in relation to job assignments , projects management, inventory management ,transportation of goods etc.
